- ✓ Able to explain technical information in an understandable manner
- ✓ Performs well in fast-paced environments
- ✓ Committed to high quality customer service
- ✓ Strong in time management, teamwork, problem solving, adaptability
- ✓ Results driven, enthusiastic and resilient

Work Experience

HEX LIMITED- FOUNDING DIRECTOR
2017-Current

Company Overview:

Formerly engaged in the supply of office furniture and stationery, Hex Limited has expanded into digital solutions, notably in mobile app development.

Key Duties:

- Oversee day-to-day administrative and operational functions across departments.

- Coordinate procurement and logistics for office supplies, equipment, and project materials.
- Manage client relations and vendor negotiations to ensure efficiency and cost-effectiveness.
- Supervise staff performance, training, and workflow optimization to improve productivity.
- Support the transition from traditional product supply to digital service offerings.

Key Successes:

- Successfully managed the company's rebranding and diversification from a furniture and stationery supplier to a tech-driven solutions provider.
- Streamlined operational processes, improving procurement efficiency and cost management by 20%.
- Enhanced inter-departmental communication and workflow through improved reporting systems.

Auctioneer Mobile Application

Led the development and launch of Auctioneer, a powerful mobile platform designed to simplify how Kenyans advertise and discover auctions, vehicles, land, and property listings.

Impact: Enabled auctioneers, real estate agents, car dealers, and private sellers to easily post ads, connect with buyers, and manage attendance for upcoming auctions.

Role: Coordinated project planning, liaised with developers, supervised testing, and oversaw the app's marketing and user onboarding.

Result: Achieved a 30% increase in user engagement and facilitated hundreds of successful listings within the first months of launch.
